

# Rescue Blend Fertiliser

**BULK  
NUTRIENT  
VALUE**

## Contains N, P and Soil Conditioning Minerals

Traditionally known as Screened Ship Sweepings, Rescue Blend Fertiliser is a rescued product made up of a combination of Urea Sweepings, Phosphate Sweepings, Minerals, Lime, Gypsum and Coal Fines that can help you enhance your soil and maximise your profit. This all-purpose blend has been carefully screened for belt and manure spreading applications in grazing, horticultural, trees and broadacre cropping operations.

### BENEFITS

- This blend gives your soil a base of nutrients in a single, low cost application.
- Bulk product.
- Contains Nitrogen and Phosphorous.
- Soil Conditioner with Lime, Gypsum and Carbon.
- Ideal for all pasture, crops, horticulture and broadacre cropping operations.

### PRODUCT SPECIFICATIONS

Rescue Blend Fertiliser is loose mix of fines and granules from storage sheds and ship hulls. This product has been carefully screened to <20mm, consisting of 0-12mm fractured granules, then blended to be a clean, spreadable product.

You are free to order this product at any time. Please note we will mix your order on the day of pick-up. Central Fertiliser recommends using this product within 24-48 hrs of delivery. This product is not recommended for on-farm or silo storage.

This Fertiliser is made from the following:

- 50% Sweepings of Urea from Port Sheds and Boat Hulls\*
- 25% Sweepings of Mineral and Phosphates\*
- 25% Sweepings Lime, Gypsum and Coal Fines\*

### APPLICATION GUIDE

Application rates should be determined by soil analysis and applied in conjunction with a balanced nutrition program.

The following rates are generalised for irrigated and dry land cropping; for intense horticulture these rates can be increased. Contact an Agronomist for assistance.

This blend is best applied via a manure spreader, broadcast or belt spreader.

### IMPORTANT:

Not for horticultural spinner spreaders or small walk behind applicators.

**Maintenance:** 100-250 Kg/Ha

**Soil Building:** 150-350 Kg/Ha

**Horticulture:** 250-450 Kg/Ha

**Compatibility:** Contact your advisor regarding the suitability of the product for your requirements.

\* Some variation will occur as this is a rescued product. \* Please note there is no analysis on Rescue Blend Fertiliser. Blended is as described. Greater than 2% Nitrogen plus Phosphorus Sulphur Calcium and Carbon. This product needs to be spread soon after delivery, this is an activated nutrient source. Subject to Volatilization and Leaching.
